**Security**

Are you PCI DSS Compliant	Yes		Included	
Are you GDPR Compliant	Yes		Included	
Do you have data centers in the North America? Please list Countries	Yes		Included	
Do you have data centers in the Europe? Please list Countries	Yes		Included	This is on our product roadmap for end of 2022
Do you have data centers in APAC? Please list Countries	No			
Does your system provide fields that only the admin has access to the data?	Yes		Included	
Are you willing to do a Security audit if you are selected	Yes		Included	
Are you ISO 27001 Compliant	Yes		Included	
Do you have a data privacy policy?	Yes		Included	

Feature	Have this Capability	Do Not Have This Capability	Included or Added Cost	Comments
<b>Site Selection/Sourcing</b>				
Please describe the process of updating or adding venues to your system	Yes		Included	Venues can be added to our system at an account or organization (brand/business unit) level. Locations can be unique venues or internal office space.
What specific "hotel description" fields feed into availability/bids reports? E.g. property name, contact info, website, etc.	Yes		Included	Hotel Name, Hotel Address, Distance from Point of Interest, Star Rating, Meeting Space, Amenities & Services, Photo Gallery, Guest Room Count, Location
How are the venues meeting floor plans integrated into RFP responses?	Yes		Included	Floor plan responses are submitted to planner via email with both response and attachments, as well being captured within the system for one centralized view.
Is there a way to maintain preferred vendor indicators in the site selection system?	Yes		Included	Companies can curate their venue collection including preferred partners, up to 4 negotiated rates, special packages, custom content and custom contacts at a chain, brand, property or venue level.
Please describe your vendor database	Yes		Included	Over 150,000 hotels and 20,000 venues globally
<b>RFP</b>				
Do you have sourcing rules and a decision tree for small vs complex meetings?	Yes		Included	
Describe the process to maintain accurate contact information at venue level? Global Sales Reps, Sales Departments, etc.	Yes		Included	Groupize has direct connects to content sources with nightly updates, in addition to the property level contacts in the system, companies can add any custom contacts at a Global, National or Local level based on Chain, Brand or Property.
Describe the process to maintain accurate chain alignment.	Yes		Included	Groupize has direct connects to content sources that update nightly, in addition, companies can curate their venue collection within the system.
Describe the process to maintain accurate closure or openings of venues.	Yes		Included	Groupize has direct connects to content sources that update nightly picking up changes, add's and delete's, in addition, companies can deactivate any venue from search results.
Does the tool have the ability to transfer data from the meeting request form directly into the RFP?	Yes		Included	Groupize also has multiple sourcing work flows - self service, full service and expert assist (hybrid)
Does the tool have the ability to attach documentation to the RFP for distribution with the bid?	Yes		Included	In addition to attachments at the event level, companies can pre-configure all bids to go with an attachment such as a hotel addendum.
Does the tool have the ability to respond to RFP's for meeting related suppliers OTHER than Hotels? If so, please list options available.	Yes		Included	Venue space such as Convene, Breather, Regus and unique venues via TripleSeat, and companies can add in their own unique venues.
Describe the ability to award the RFP to a non-participating vendor within your tool.	Yes		Included	Venues do not need to 'participate' in Groupize, we do not have participation or marketing fees, companies should not have non-participating venues. However, if this did arise, venue information can be entered at the event level post sourcing.
Elaborate and provide sample responses from vendors to the RFP's.	Yes		Included	Groupize captures all communications between planner and vendor with both structured fields and unstructured data, we capture all attachments such as BEO, Menu, Contracts and manage all changes such as date, requirements, etc. Responses are accessible in planners email inbox as well as in our system.
Can the tool create multiple RFP templates (Example: Rooms only, Meeting space only, Full Meeting:)	Yes		Included	Groupize manages rooms only, event space only and full event and is supported by a rules engine and multiple workflows including self-service, full-service and expert assist (hybrid).
Does the tool have the ability to send out Request for Information (RFI) instead of RFPs with measurable results within the tool?	Yes		Included	Groupize sourcing module is called eBids, not eRFP's, with this flexibility vendors can be notified if this is an RFI versus a bid in an active sourcing stage, all responses are captured and a cost comparison report can be generated.
Does the tool have the ability to award an RFP to multiple venues for the same event without having to create separate events per venue selected? (Example, an event requires 3 contracts at 3 venues due to size of event and need aggregated spend data associated to the one event.	Yes		Included	
Can the tool show historical awarded data at the RFP creation phase? (Example: has hosted 3 events at this venue, with hyperlinks to the historical events as reference to the sourcing teams)	Yes		Included	
Does the tool have the ability to capture RFP responses, final planner decisions, and dynamically capture savings and or overages based on negotiations and decisions?	Yes		Included	
If so, please detail the process.				The system captures and compiles all RFP responses, tracks how business was awarded and can report on savings or overages, however as vendors are typically not using the eBid tool post initial bid, entering the data would fall on the planner.
Does the RFP give the bidder the option to itemize meeting space daily/total pricing? Including multiple breakouts and even spaces	Yes		Included	

Does the RFP give the bidder the option to itemize multiple room rates and categories? (i.e. Staff rooms, attendees, VIP rooms)	Yes		Included	
---	-----	--	----------	--

#### Preferred Suppliers / Procurement / Strategic Sourcing

Does your system have a procurement module?	Yes		Included	Groupize supports approvals and contract signature requirements, but not integrated with payment systems
Can preferred suppliers (air, hotel, car, and limo) be loaded into the system?	Yes		Included	Preferred venues, hotels and non-hotel venues, can be loaded into the system, via integration with SAP Concur, air, car and limo suppliers are accessed.
Are these preferred suppliers part of the site selection process?	Yes		Included	
Please describe how preferred suppliers are identified in the system.	Yes		Included	Groupize has two flags: Preferred and Negotiated and custom content for feature flags, such as cleanliness protocol.
Can the preferred properties be entered and maintained separately by instance of tool?	Yes		Included	Groupize can access negotiated rates via the GDS and allow for maintenance within the system.
Does tool have the ability to report on supplier response rates and detail? If so, please detail.	Yes		Included	Groupize has a business intelligence reporting package via Tableau that shows supplier response rate. Groupize automatically follows up with venues that have not responded at 24 and 72 hours post bid submission.
Does the system provide for a database of other suppliers such as destination management companies, florists, Global events, etc?	Yes		Included	Accessible via our portal page, all additional services can be marketed; our rules engine can determine how to get the user to the right vendor/solution.
Does the tool have the ability to default to preferred suppliers only?	Yes		Included	
Can non-preferred suppliers be eliminated as choices within the tool?	Yes		Included	
Describe on any of the above if there are limitations based on separate instance versus across all agency instances.	No			Groupize has a multi-tenant hierarchy and supports unlimited instances, each with the option to have their own unique rules.

#### Contracts

Does the tool have the ability to "house" contracts and contract templates? If so, please detail?	Yes		Included	Contracts, contract templates and addendums can be attached at an account or organization level and sent with all bid requests.
Does the tool have the ability to allow users to attach contracts or contract templates to meeting leads?	Yes		Included	Attachments can be pre-configured/mandated OR attached to each request.
Does the tool have the ability to pre-populate contract templates with information entered or selected during the registration and/or RFP process? If so, please detail the process.	Yes		Included	Groupize has templates for registration

#### Meeting Request Forms (differentiated from Attendee Registration)

Please detail the Meeting Registration system or software you propose for registration of events.	Yes		Included	Groupize is the meeting registration platform.
Please list the capabilities and processes for the system.	Yes		Included	Groupize supports meeting registration for in-person, hybrid or virtual meetings; as well as documenting meetings managed in the Groupize system or sent to another tool for sourcing.
Do you already have a system in place? If your current system would require additional development to meet the specifications as outlined herein, please clearly articulate the enhancements required, estimated timeline and potential costs to of the development.	Yes		Included	
Is your system equipped with decision technology supporting our requirement to evaluate input provided by personnel for completeness and/or specific content and automatically route their request to the appropriate automated process or human resource, including the automated assignment of unique meeting numbers for each registration?	Yes		Included	
Can your meetings request technology automatically create and populate registration sites or RFPs?	Yes		Included	
Can your meetings request automatically populate budget categories?	Yes		Included	
Can you create custom questions in the Event Request Form?	Yes		Added Cost	
Can you create Templates in Event Request Form?	Yes		Added Cost	

#### Meeting Calendar

Does the system maintain a meeting calendar summarizing all the meetings at the corporate level and separately at the business unit level.	Yes		Included	
Please describe what flexibility is available				We support viewership requirements, meetings are visible by calendar view, list view and map (duty of care) view.
Can these calendars be exported	Yes		Included	

**Inventory Management**

Does the tool provide real time inventory management?	Yes		Included	Groupize manages hotel room blocks, live hotel room bookings and inventoried items such as tickets, merchandise or sessions.
If not, please detail what, if any, functionality the tool provides for inventory management?				

**Event Management Budgeting and Reconciliation**

Can you enter actual spend into the system?	Yes		Included	
Can you create actual vs. budget reporting?	Yes		Included	
Does the tool have the ability to allow to tailor a budget template based on specific data? If so, please detail the process. If not, does the tool have a budgeting function based on industry averages? If so, please detail the process and provide a sample of such a budget.	Yes		Included	Groupize includes budget templates pre-sourcing and post sourcing, both at the venue level, as well as at the entire event level.
Does the tool have the ability to capture actual spend data throughout the planning process? If so, please detail the process?	Yes		Included	Initial bid is entered by the venue, all other costs are entered by the planner.
Does the tool have the ability to compare actual spend detail to budgeted spend detail? If so, does the tool have the ability to prompt the planner for rationale behind any negative gaps?	Yes		Included	
Please articulate the tool's ability to support reconciliation to original budgets.	Yes		Included	Groupize does not have automated reconciliation but has all requirements for planner reconciliation.
Does the system provide for estimated budgets for the chosen sites?	Yes		Included	Groupize tracks initial offer through to final cost for venues.
Does the system allow for automated 'approval of budget' system? If so, please explain in detail process.	No			Groupize requires a user to approve a budget.
Can the tool pull the awarded vendors RFP financial responses directly into the budget module without manual entry?	Yes		Included	

**Cancelled Space**

Please describe in detail the tool's ability to post 's cancelled space for to view cancelled space, by individual instance as well as by administrator	Yes		Included	Groupize offers hotel curation that includes custom content to be loaded for any property and available to all or some user groups, this custom content would be loaded by an organization member for others to view.
Does the system provide for "open inventory" or "cancelled space" alerts so that other business units can access the hotel space and save on attrition?	Yes		Included	
If so, can an administrator designate who has access to view these alerts? By business unit or agency?	Yes		Included	

**Live Hotel Bookings**

Does it offer live hotel bookings?	Yes		Included
Does it integrate with the GDS or OBT?	Yes		Included
Does it pull company or agency negotiated rates?	Yes		Included
Can you manage a hotel room block with live inventory?	Yes		Included

Feature	Have this Capability	Do Not Have This Capability	Included or Added Cost	Comments
---------	----------------------	-----------------------------	------------------------	----------

**Registration**

Does the system provide for attendee/event registration? Please describe what is included.	Yes		Included	Website creation, invitations, RSVP's, attendee registration, communication engine, travel management for hotel and air, sessions, items, payment and logistic reports.
Does the system provide for group registration, if so please describe the process.	Yes		Included	
What modules are part of the registration solution? Please identify what is included in versus what would be an addon feature.	Yes		Included	There are NO additional fees for registration functionality, including per attendee or per user.
Does your solution allow for log back in capabilities? If so is it a portal based approach or a review your registration and make changes.	Yes		Included	We support portal based for planners and web access for attendees to make changes to their registration.
Does the tool have the ability to allow the planner to build a simple or complex attendee registration website without supplier involvement? If so, please detail the process. If not, please detail where and to what degree supplier involvement is required. If supplier assistance is required, outline any additional costs associated with assistance in building an attendee registration site.	Yes		Included	Groupize is the self-service tool of choice by many companies. Supplier involvement is optional and fees would be charged by TMC or Third party.
Please articulate the tool's ability to modify the registration site to accommodate changes to schedules and functions, including attendee invitations. Indicate where/if supplier involvement is required.	Yes		Included	Groupize is a do it yourself platform and all changes can be made by a planner, no supplier involvement is required.
Do you have a Housing Module	Yes		Included	Groupize has both room block and live booking functionality for housing.
Do you integrate with other housing platforms? Please list.	No		Included	We can direct attendees to other housing platforms to make a booking, but there is no integration. We do have integration with Concur Travel for hotel bookings.
Please describe how travel requests are handled in your system	Yes		Included	Each event can be configured to the needs of the event - either full service or self service in Concur for air, car, and/or hotel.
How do you link to an external booking tool/TMC's	Yes		Added Cost	We have the industries only real time two way push/pull with Concur Travel and are integrated with multiple GDS's.
How does your solution handle trip extensions	Yes		Included	Trip Extensions can be offered or prevented, approvals can be managed in Concur.
Does the platform offer the ability to support a virtual meetings component?	Yes		Included	
Do you integrate with other Virtual Platforms?	No			Can link out to any virtual platform after using Groupize for registration.
Do you have attendee types?	Yes		Included	
Do you have conditional logic?	Yes		Included	
Do you support multiple languages?	Yes			
Choose from event website design templates	Yes			
Optionally secure event website by requiring a password to view the content	Yes			

**Onsite Solution**

Do you provide an onsite checkin solution?	Yes		Added Cost	
Does your solution allow for self checkin?	Yes		Added Cost	
Is this a cloud based solution?	Yes			
Do you allow for QR code checkin?	Yes			
What type of printers do you offer? Please list Model #'s	No			

**Payments**

Does your solution handle payment processing	Yes		Included	Groupize integrates to Stripe and has secure encrypted credit card capture.
Offer early-bird discounts	Yes		Included	
Establish promotion codes/coupons with expiration dates and capacity limits	Yes		Included	
Automate volume discounts for group registration	Yes		Included	

Provide dynamic registration pricing based on contact types	Yes		Included	
Accept donations in amounts chosen by registrant	Yes		Included	
Offer purchase of optional items such as books, shirts, or tickets	Yes		Included	
Allow registrants to send partial payments, or choose to accept only complete payments		No	Included	
Automate refunds according to custom refund policy		No	Included	
Real-time credit card processing	Yes		Included	
Set tax rates and service fees	Yes		Included	
Elect to delay processing of credit card to a later time	Yes		Included	
Track payments made outside of system	Yes		Included	
Connect to an existing merchant account or acquire a new merchant account	Yes		Included	
Direct deposit of all payments into planner's merchant account	Yes		Included	
Receive automatic notification of failed transactions	Yes		Included	
Assign general ledger (GL) codes to event fees for easy integration to accounting platform	Yes		Included	
Safely process fees via Payment Card Industry (PCI) compliant provider	Yes		Included	

Feature	Have this Capability	Do Not Have This Capability	Included or Added Cost	Comments
<b>Reporting</b>				
Does the system provide for management reporting? Please list examples of the most popular reports.	Yes		Included	# of bids, Events and # of Registrations by Account and Organization, # of Bookings over time, Initial Bid vs Negotiated Savings, Air Booking Window, Sourcing Booking Window, Air Spend, Air Savings Opportunities.
Does the tool have the ability to report on actual supplier usage?	Yes		Added Cost	Production by spend and room night at event level, organization level and account level for both hotel and air booked in Concur.
Does the tool have the ability to report on key metrics across suppliers? If so, please articulate available metrics.	Yes		Added Cost	For hotel sourcing: Spend by Chain, Brand or Property, use of Preferred Suppliers, use of Negotiated rates, total air spend for events and more.
Does the tool allow to define a new metric and then report on this metric across suppliers? If so, describe in detail if there are any limitations, fees, or timelines associated with adding new metric?	Yes		Added Cost	Custom Reporting via Tableau
What kind of reporting can you do for the meeting planner (types of arrival/departure manifests, savings analysis, etc), and is there any customary charges or fees for providing this service?	Yes		Included	See Screen Shot for Logistical Reports for attendee and travel management
Can a separate portal be created to allow Non licensed users ability to pull a report? If so please describe.	Yes		Included	
If so does the portal allow users to create own reports	No			
Describe the accounting and reporting capabilities that would realize as output from the registration system. Explain the process.	Yes		Added Cost	Groupize registration module can manage both expense and price for attendees, fully configurable based on requirements and all standard reports exportable by Excel or customizable via Tableau
Does the tool have the ability to allow access by to export any/all data fields directly from the database in an Excel compatible format?	Yes		Included	All reports are exportable to Excel.
Please include data sources and any assumptions made in the compilation of the savings reports.	Yes		Included	Venue, planner or administrative user roles.
As an administrator, can we restrict the meeting planners to only have access to their meetings, including viewing, creating, or running their own reports? Please explain process.	Yes		Included	Viewership is controlled by a robust rules engine.
Does the tool have the ability to report in multiple currencies? Can it also convert to the local currency of the user?	Yes		Included	We support all currencies but not conversions, that is for company policy to dictate conversion.
Does the tool have the ability to generate invoices to vendors, clients or any party involved in meeting along with reporting?	No			
Does the tool have the ability to send customized messaging based on pending responses to amounts due?	Yes		Included	To attendees, but not to vendors.
Do you have a business intelligence module for aggregated reporting and dashboards	Yes		Added Cost

# IMPLEMENTATION & ONBOARDING JOURNEY

- The initial Implementation can take anywhere from 6-12 weeks (based on complexity) and is led by a dedicated Groupize Implementation Manager.
- Weekly calls are collaborative and hands-on. The goal is to empower you to own your Groupize from day-one.
- Suggested client-side project team members may include: Groupize "owner;" internal project champion, meetings/travel manager, sourcing/attendee reg experts.
- Other SMEs may be needed for specific meetings as necessary: IT, TMC contact, "super users," etc.

groupize

Groupize has become a leader in enterprise meeting management due to key differentiators that benefit planners, attendees, and the enterprise alike.

Notable distinctions:

- All in one end to end platform for both full service and self-service use cases
- Ease of use due to modern and consumerized UI
- Built from the ground up as an enterprise solution with no per user licenses
- Multi-tenant platform built for global deployment
- Robust functionality to meet the unique needs of events in any department
- Innovation product roadmap aligning with customer first vision
- Value and ROI
- Enterprise grade security and reliability
- Industry leading customer service and dedicated senior management support
- Exclusive integrations to core in-house travel and expense tools (SAP Concur and Travelport)

# groupize

Groupize is a customer-first organization. We work hard to deliver a stellar customer experience at each touchpoint and we are on a mission to be the most loved meeting tech provider. Our product roadmap is influenced by customer requests and we ensure every release includes user-requested features. We are a SaaS company that focuses on both software & service.

Recent Testimonials:

“ We were an early adopter of Groupize and this continues to speak to the evolving product, the SAP Concur connection, the outstanding customer service, and the ease of use for both the planner and end-user! ”

Director, Brand Experience, Biomedical Company

---

“ Thank God we found Concur Event Management by Groupize. Our previous solution (and the one before that) certainly couldn't support what we're trying to do. It is now possible for professional planners and executive admins to use the same tool. ”

Procurement Manager, Travel, Expense & HR,  
Management Consulting Company

---

“ Groupize is very user-friendly and will help you plan any size event with ease. You can use it for an in-person, on-site, off-site, or virtual meeting as allows you to creatively supply your attendees with all the information needed for a successful meeting. It's a great “one stop shop” tool! ”

Administrative Assistant, Global Communications Company

“ Finally, I can get all of our meetings and events all under travel, this is fantastic! We have been trying to get the visibility on spend for years! ”

Global Travel, Largest Paper & Pulp Company in the World

---

“ Groupize is the best implementation I have experienced in my entire career. ”

Senior Manager, Global Procurement,  
Life Sciences company

---

“ Thanks to Groupize, we saved \$5000 (on a final total of \$25,000) just by having the visibility, being able to send to other vendors and being able to communicate our educated understanding of the marketplace. ”

Travel Manager, Fortune 500 Company

---

“ OMG...it is soooo easy! I love it!! It makes finding a venue for a meeting much less time-consuming and much more user friendly! ”

Talent Manager, Retail Organization
